

MINIATURE AK-47 GOATGUN MODEL ASSEMBLY

GOAT GUNS
 f @GOATGUNS @GOAT.GUNS

HOW TO:

Parts List

A. Bolt carrier	E. Charging handle	I. Non-firing rounds
B. Top handguard	F. Dust cover	J. Stock
C. Bottom handguard	G. Receiver assembly	K. Display stand
D. Muzzle	H. Magazine	L. Barrel

Hardware List

[1] spring
[1] rod
[5] screws
[1] screwdriver with magnet

1 Begin by inserting top (B) into bottom (C) handguards until firmly seated at both ends.

2 Insert small flat head screw to bottom of barrel where the holes align. (Attach magnets to screwdriver to keep screw in place.)

3 Push rod (L) through holes in the barrel. Rod will be tough; carefully use the plastic part of the screwdriver or the edge of a table to ease the rod into place.

4 Attach the muzzle (D) by threading onto the end of the barrel.

5 Attach the muzzle (D) by threading onto the end of the barrel.

6 Insert charging handle (E) into receiver with the handle on the right side (G). Put spring on the bolt carrier (A) and insert, spring first, into the charging handle. The bolt carrier will slide into the rear grooves.

7 Place dust cover (F) over the bolt carrier (A). Place the front of the cover all the way forward, the rear will rest on the bolt carrier. Push directly down on the dust cover. It will rest in a groove near the stock. Some light force may be needed for the cover to sit in place.

8 Attach the stock (J) and tighten top and bottom with the two large screws.

9 Load non-firing rounds into the magazine (H). Slide magazine until it clicks into place. Show off your GoatGun on the display stand.

DISCLAIMER:

This is a miniature closed barrel toy model. Never take to public places. Keep on display stand at all times. Owner accepts all legal responsibilities.
