- C. Receiver
- D. Loaded Mag
- E. Leather Sling
- F. Long Screw
- G. Short Screw
- H. Screwdriver

1

**Place trigger housing group (A) in lower receiver (B). Housing group has tabs on both ends to hold it in place.**

2

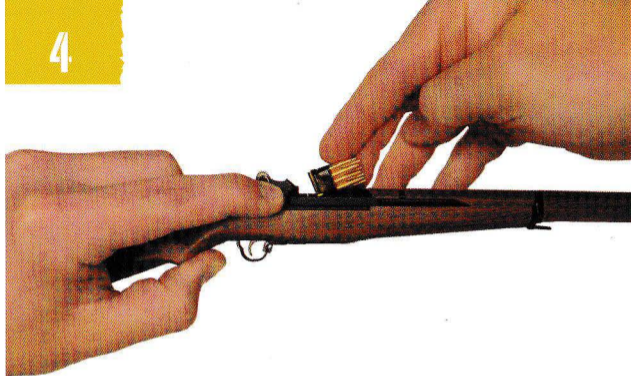

**Attach the receiver (C) by sliding the stock (B) into the metal collar located at the bottom of the receiver. Combine parts together.**

3

**Insert long screw (F) into rear hole and short screw (G) into the forward facing hole. Tighten with included screwdriver (H).**

4.

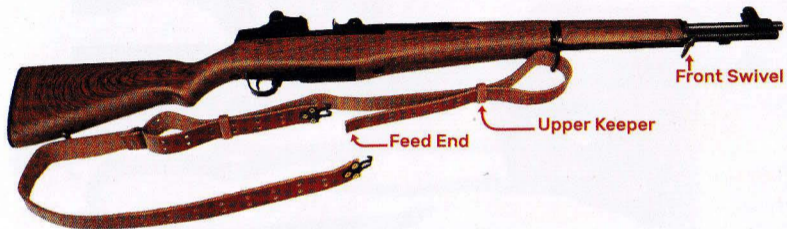

**Pull back on bolt to reveal clip loading area.  
Insert clip with dummy rounds facing the barrel.  
Push down until the bolt is clear and able to  
slide.**

5

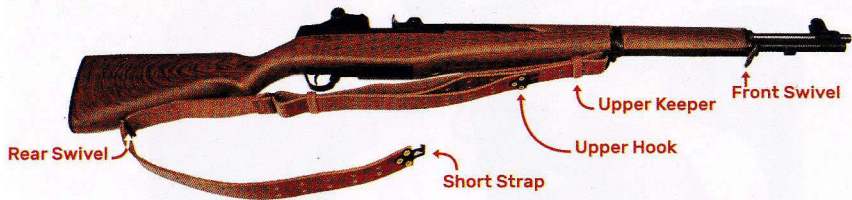

**Attach sling. Arrange length as desired.  
Sling assembly instructions on reverse  
side.**

Thread feed end through front swivel and through upper keeper.

**Connect the upper hook into holes near the front swivel. Feed short strap through the rear swivel.**

**Pull short strap tight and connect beneath upper hook. Adjust length of sling as needed.**
