

MINIATURE TMS GOATGUN MODEL ASSEMBLY

HOW TO:

Hardware List

- [1] spring
- [1] retaining pin
- [3] screws
- [1] screwdriver with magnet

Parts List

- | | | |
|-------------------|----------------------|------------------|
| A. Barrel | D. Magazine | G. Display stand |
| B. Upper receiver | E. Stock | |
| C. Lower receiver | F. Non-firing rounds | |

1 Put spring on the retaining pin.

4 Slide barrel (A) onto upper receiver (B). Screw into place using one of the included screws.

6 Insert non-firing rounds (F) into magazine (D).

2 Place spring and retaining pin into back of upper receiver (B), inserting spring first

5 Screw stock (E) onto lower receiver (C).

7 Slide magazine (D) along rails until it clicks into place. Show off your GoatGun on the included display stand.

3 Slide upper receiver (B) onto lower receiver (C) where notches align. Push the upper receiver back until it clicks into place.
